

H26

MAJOR PROVISIONS OF INTEREST TO DOE  
UNDER THE FINAL AND APPROVED  
COMPACT OF FREE ASSOCIATION

1. Payment under subsection 177 will be made only after RMI notifies U.S. which investment firm selected.
2. RMI espouses all claims in Article X and XI, of subsection 177.
3. Upon request from RMI, the President shall cause to be provided special medical care for the remaining exposed people of Rongelap and Uterik and logistical support. Shall total \$22.5 million over first eleven years of Compact. Next four years funded under subsidiary agreement 177 unless Congress extends DOE support. Note: RMI in December 10, 1985 letters to Representative Seiberling, Secretary Schultz, and Secretary Hodel, requested U.S. to continue the DOE medical program and the Bikini and Enewetak food program.
4. For first five years after effective date, President shall provide without reimbursement, technical and other assistance to:
  - a. continue agricultural maintenance program on Enewetak.
  - b. continue food programs for Bikini and Enewetak people.
  - c. continue waterborne transportation of agricultural products to Enewetak including operations and maintenance of vessel.
5. RMI shall use 177 funds to contract with qualified scientists to review DOE data on habitability of Rongelap per DOE report.
6. Treasury to set up \$7.5 million Enjebi Trust Fund per Article V of 177 (\$2.5 million already appropriated in Interior's 86 budget for total of \$10 million).
7. Upon request from RMI, U.S. shall "monitor" Enjebi and report within one year when and under what circumstances Enjebi can be resettled. If they can resettle within 25 years, then fund can be used to resettle. If not, funds disbursed to relocate elsewhere.
8. U.S. commits to "restore" Bikini Atoll and funding is authorized.
